

INSTALLATION INSTRUCTIONS

70-96 POLE KIT

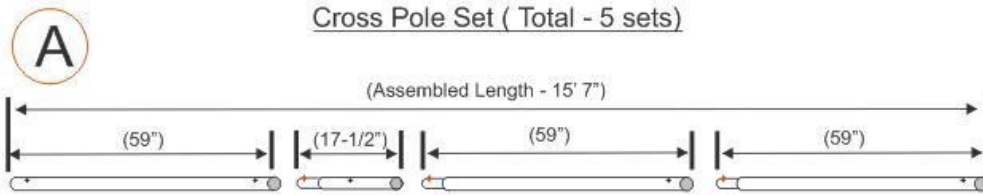

Warning: This batting cage system is not designed to withstand strong winds or severe weather conditions. Use your own judgment as to whether or not your batting cage needs additional bracing / support. We strongly recommend that you use long stakes, cables, and clamps to anchor the batting cage down to the ground.

Page 1

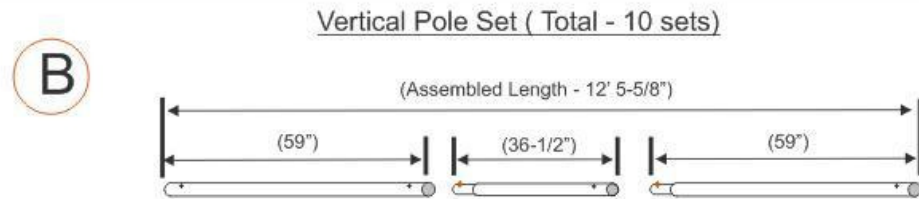

Step 1: Assembling the Frame

Important: Make sure to insert the ends of the poles completely into their respective 3 and 4-way fittings. DO NOT attempt to thread the supplied bolts through the holes in the ends of the poles – this will enlarge the frame unnecessarily and will make the frame weaker, and there's a good chance your net will not fit!

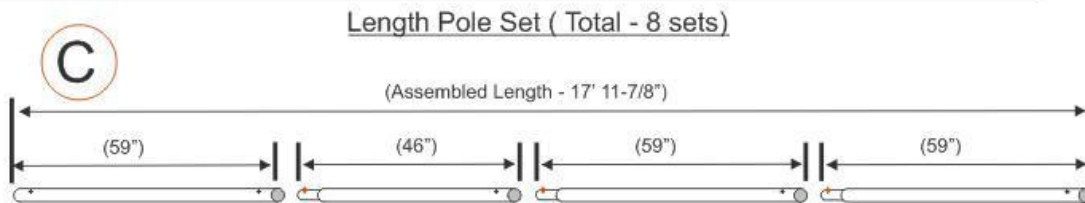

Assemble the pole sections as shown:

- 5 Pcs - 59" Straight (hole on **each** end) 
- 5 Pcs - 17-1/2" Swaged one end (hole on other end) 
- 10 Pcs - 59" Swaged one end (hole on other end) 

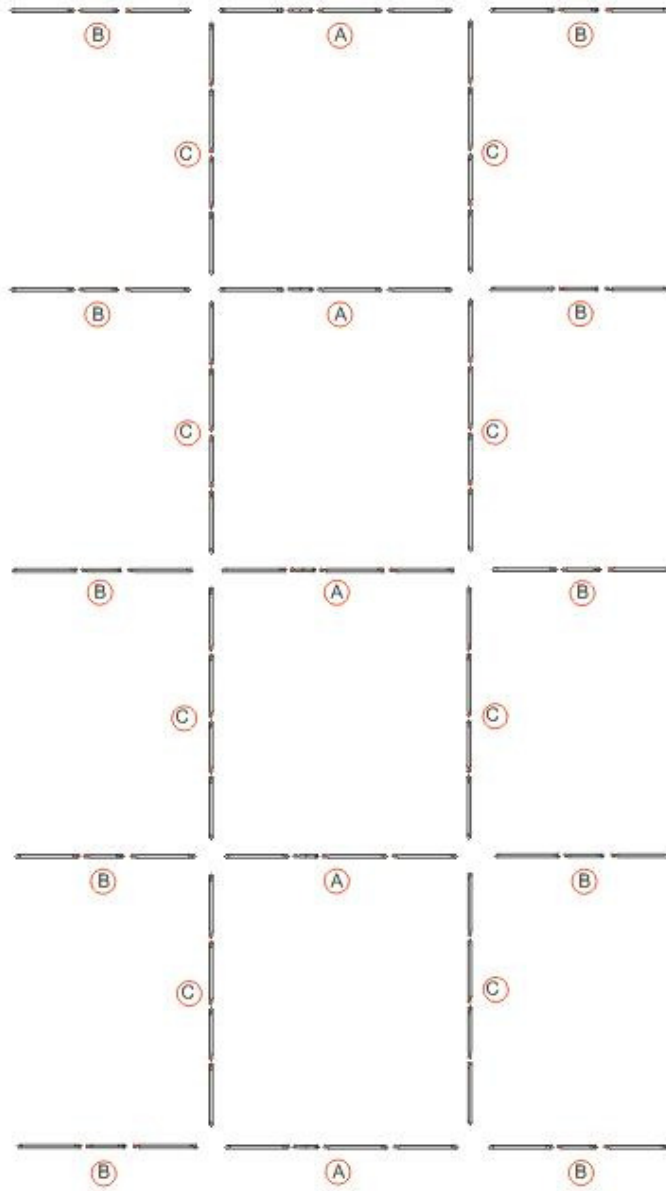

- 10 Pcs - 59" Straight (hole on each end) 
- 10 Pcs - 59" Swaged one end (hole on other end) 
- 10 Pcs - 36-1/2" Swaged one end (hole on other end) 

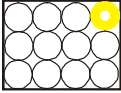

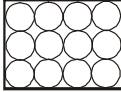

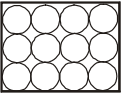

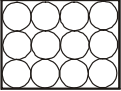

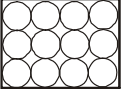

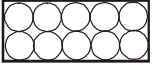

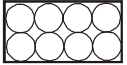

- 8 Pcs - 59" Straight (hole on **each** end) 
- 16 Pcs - 59" Swaged one end (hole on other end) 
- 8 Pcs - 46" Swaged one end (hole on other end)
